

Appliance Lifecycle Management Guide

The Appliance IQ framework for assess, care, repair and replace decisions.

Appliance Health Score	Meaning
90-100	Excellent
75-89	Good
60-74	Fair
40-59	Attention recommended
0-39	Repair/replace judgement needed

Assess

- Use a health score to understand current condition.
- Consider age, brand, fault type, usage and replacement cost.

Care

- Use best practices before paying for unnecessary service.
- Small habits prevent many faults.

Repair

- Repair when cost, parts, age and expected life make sense.

Replace

- Replace when the repair is poor value or safety/reliability risk is too high.
